

Looking forward to a New School Year...

With Inspiring New Accomplishments!

This year's journey of *Thinking, Learning, and Caring* at A.P. Willits School is underway! The first day of school

was marked by children being greeted by their teachers and successfully settling into their new classroom communities. Students have learned new class rules and routines, and are already buzzing about all the new things that they have learned. There have been smiles, waves and hugs as friendships resume and sprout

just about everywhere!

We are all excited for the wonderful adventures and opportunities for discovery and learning that await us this year!
